

CERTIFICATION REQUIREMENTS FOR ASBESTOS DISCIPLINES

ASBESTOS ABATEMENT DISCIPLINES

DISCIPLINE	REQUIREMENTS
Exterior Asbestos Worker <i>May conduct exterior (roofing, siding) abatement on non-friable asbestos-containing material that remains non-friable throughout project including setup, repairs, and removal, while under supervision of a certified exterior asbestos supervisor.</i>	Training. 1-day Exterior Asbestos Worker class. Apply for certification and pay the \$125 fee. Refresher training required annually. (Refresher may be provided by the employer or a Wisconsin-accredited training provider). Renewal of certification is not required if refresher training is taken annually and documented.
Exterior Asbestos Supervisor <i>May oversee and conduct exterior abatement on non-friable asbestos-containing material that remains non-friable throughout the project, require changes in work practices or halt project, collect exterior bulk samples to test for asbestos, and conduct air sampling for exterior work.</i>	Training. 1-day Exterior Asbestos Worker and 1-day Exterior Asbestos Supervisor classes. Apply for certification and pay the \$75 fee. Initial certification expires one year after training is completed. Refresher training required annually (2 hours). Renew certification annually. Apply after completing refresher training and at least 30 days before current certification expires.
Asbestos Abatement Worker <i>May conduct asbestos abatement, including setup, repairs, removal, encapsulation, enclosure, and loading out asbestos-containing material waste from a building, when a certified abatement supervisor is on site.</i>	Training. 4-day Asbestos Abatement Work class. Apply for certification and pay the \$75 fee. Initial certification expires one year after training is completed. Refresher training required annually (8 hours). Renew certification annually. Apply after completing refresher training and at least 30 days before current certification expires.
Asbestos Abatement Supervisor <i>May oversee certified workers and conduct asbestos abatement, function as an air sampling professional, and require work practice changes or halt a project.</i>	Training. 5-day Asbestos Abatement Supervision class. Apply for certification and pay the \$125 fee. Initial certification expires one year after training is completed. Refresher training required annually (8 hours). Renew certification annually. Apply after completing refresher training and at least 30 days before current certification expires.

CERTIFICATION REQUIREMENTS FOR ASBESTOS DISCIPLINES

ASBESTOS MANAGEMENT DISCIPLINES

DISCIPLINE	REQUIREMENTS
Asbestos Inspector <i>May conduct asbestos inspections, including determining the presence, location, or condition of friable and non-friable asbestos-containing material, whether by visual or physical examination or by collecting sam-</i>	Initial training. 3-day Asbestos Inspection class. Apply for certification and pay the \$175 fee. Initial certification expires one year after training is completed. Refresher training required annually (4 hours). Renew certification annually. Apply after completing refresher training and at least 30 days before current certification expires.
Asbestos Project Designer <i>May write asbestos abatement project designs for abatement projects.</i>	Initial training. 3-day Asbestos Project Design class. Apply for certification and pay the \$175 fee. Initial certification expires one year after training is completed. Refresher training required annually (8 hours). Renew certification annually. Apply after completing refresher training and at least 30 days before current certification expires.
Asbestos Management Planner <i>May develop a plan to manage asbestos in a building and make recommendations for the best response actions to be taken to manage asbestos-containing material in the building.</i>	Initial training. 3-day Asbestos Inspection class plus 2-day Management Planner class. Apply for certification and pay the \$125 fee. Initial certification expires one year after training is completed. Refresher training required annually (4 hours Inspection class plus 4 hours Management Planner class). Renew certification annually. Apply after completing refresher training and at least 30 days before current certification expires.

To keep the same annual expiration date, take refresher training within 3 months before certification expires. Refresher training taken outside of this window results in a new expiration date one year from the refresher class date.

Applicants trained in another state must take a refresher class in Wisconsin, submit copies of all training certificates dating back to initial course, and may have no more than 24 months between any two required classes. Applicants trained out of state must also pay a \$25 processing fee in addition to the certification fee.
